

Illinois Capitol Kennel Club Presents:
MYRA SAVANT-HARRIS
Canine Reproduction & Whelping and Puppy Intensive Care
January 21, 2012-9:00-5:00
January 22, 2012-9:00-3:00

Myra Savant-Harris has many years of experience working labor/delivery and neonatal ICU in hospitals. Her two books, "*Puppy Intensive Care*" and "*Canine Reproduction and Whelping*" translate many of the things she learned in her career into puppy and canine repro terms. Breeders all over the US and Canada are learning many things from her seminars about how to get bitches in whelp, keep them in whelp, deliver puppies safely and keep them alive. In her books and seminars, she teaches how to assess a sick puppy, how to tube feed, hydrate by sub cutaneous methods and administer oxygen. Her books and seminars also teach how to collect canine semen and inseminate a bitch, diet for the bitch in whelp, timing for chilled and frozen sperm and the role of calcium and pitocin in whelping.

Who should attend the seminar? Whether you are experiencing your 1st or 20th litter, and have ever lost a puppy or bitch, or had a breeding that did not take, this seminar is a must. Saving the life of just one puppy will make this seminar a worthwhile investment! The techniques Myra teaches have helped save the lives of countless puppies and protected the well-being of many bitches.
